

**\*\*\*Important Notice\*\*\***

The following questions must be completed on your own. The result of the form below will be assessed. If your results are not to the satisfactory requirement to gain entry into the course, a representative from Men at Work will speak to you about assistance that you may be able to access.

Men at Work recognises that reading, writing, listening, speaking and understanding mathematical concepts are integral skills required for work and are therefore an important component of training. As all students are individuals with different life experiences, literacy and numeracy skills can vary.

If you have a language, literacy or numeracy concern that is affecting your learning within the training program, we encourage you to raise the matter directly with a trainer from the RTO.

As part of this pre-training review process, you are now required to complete a Language, Literacy and Numeracy (LLN) exercise which will be used to assess your LLN ability to undertake the course.
