

OPERATE A TRUCK MOUNTED ATTENUATOR

COURSE CODES - Unit of Competency

RIIRTM301D - Operate a truck or trailer mounted attenuator

LOCATION

Men At Work Port Macquarie - 4/6 Belah Road

PRICE

\$650.00

DURATION

1 Day

TRAINING COURSE AIM

This course provides the skills and knowledge required to operate a truck mounted attenuator when carrying out traffic management activities in civil construction. This course includes guidelines to protect the safety of road workers by providing physical protection via the attenuator when road or lane closures are not reasonably practical. The course also covers planning works involving attenuators, examples of Traffic Control Guidance Plans (TCGP), industry standard approaches in the use of attenuators, and safety measures for deploying the Scorpion Device and Raising during works or completion of works.

COURSE CONTENT

- Positioning and locating the vehicle
- Responsibilities for safety at worksites
- Two way radio communications
- Safe operation of the attenuator
- Implementing traffic guidance schemes
- Record keeping
- Programming the visual display board

PRE-REQUISITES

- NSW Construction Induction Card (White Card)
- Rigid Truck Drivers Licence
- Statement of Attainment for RIWHHS302D - Implement traffic Management Plans
- Statement of Attainment for RIICOM201D – Communicate in the Workplace

REQUIREMENTS

- Present current photo card traffic control tickets including the above stated units of competency
- Participate in a prescribed practical simulation of traffic control duties and undergo a number of activities under observation of an approved trainer/assessor
- Level 1 – Language, literacy and numeracy skills

ON COMPLETION - Upon successful completion of this course participants will be awarded a statement of attainment and verification of competency photo card.
